

fidelity™

3D

■ ADVANCED ■ UNMATCHED ■ PREMIUM ■ DEPENDABLE

Fidelity 3D™ is the premium stereoscopic display solution for large-format and dome theaters for truly immersive, crystal-clear and colorful 3D.

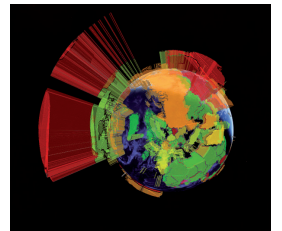

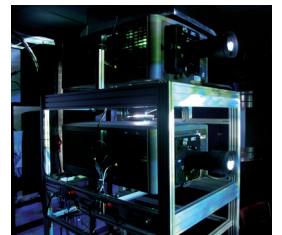

We offer a wealth of innovative solutions with a range of stereoscopic projection technologies and compatible glasses through to custom 3D shows and 4D effects... all with the superior performance that comes with every Fidelity™ display as standard.

Fidelity 3D™ is the ultimate high-end, flexible and dependable stereoscopic display solution. With both monoscopic and stereoscopic capabilities, **Fidelity 3D™** combines modified, professional-grade technologies to build theaters for the future.

We recognize that technology choices must be appropriate for their application, so **Fidelity 3D™** accommodates a wide range of content ranging from real-time astronomy lectures to Hollywood blockbuster screenings and is perfect for both dome and large-format theaters,

Our Design team continue to innovate and deliver award-winning, leading-edge solutions for ambitious theaters... as a result, our portfolio now includes more than one hundred 3D installations, the first 3D full-dome display (installed 2006) and the first combined 3D and full-dome theater.

We understand that 3D must be sharp, clear, colorful and bright. We know that 3D must be precision engineered and geometrically accurate. We ensure that each and every **Fidelity 3D™** is like no other.

FEATURES

- Sharp, colorful & bright with superior image contrast & geometry
- Active, passive or Infitec™ stereo with tuneable separation
- Range of stereo glasses solutions & option of our own super-efficient glasses washing system
- Manageable, mature & stable technology
- Capable of monoscopic or stereoscopic
- Option for additional 4D effects & seating
- Lowest cost of ownership in the industry
- Unique pixel management & image distortion correction
- Uncompressed, lossless content playback
- Fidelity™ modified projection configuration with seamless blending
- Fidelity™ software suite & full wireless control of your entire facility
- Tailored training, maintenance & support
- Optional seating, screen, pre-show area & custom-show production, audio & more...

THE THEATER

Fidelity™ solutions can include seating layout & installation, design, pre-show areas, screens, back-up systems, ticketing systems, interior design, project management... as much or as little as you need.

PROJECTION

Fidelity™ projectors are selected from the manufacturer and engineered in-house using our exclusive 22-stage process for a matched, seamless, crystal-clear Fidelity™ display.

IMAGE MANAGEMENT

Meticulous image distortion correction, expert pixel management, accurate geometry and perfect optical and electronic channel blending are standard components of every Fidelity™ solution.

CONTENT

Tailored Fidelity™ software suites can include Global Immersion Media Director (drag 'n' drop production/editing tool) and Uniview™ real-time data visualization/astronomy platform. We distribute shows and vignettes from the leading content houses around the world, and also offer custom show production for your specific requirements.

MEDIA SERVERS & STORAGE

Our unique Media solutions stream lossless, ultra-high resolution content in proprietary formats to provide highly redundant solutions and to preserve the Fidelity™ from disc to display.

AUDIO, LIGHTING & CONTROL

Customized Fidelity 3D™ systems can include the latest surround sound audio configurations, innovative LED lighting systems – all controlled via a pre-programmed, wireless touch-screen panel which will also manage all other components of your theater system.

CARE

As standard, each Fidelity™ solution includes warranty, remote diagnostics, 24/7 telephone & email support plus much more. Our Care team designs support packages to include spares, repairs, maintenance and extended warranty to keep your system looking consistently perfect.

Our award-winning range of **Fidelity™** display solutions have been rigorously developed over more than eleven years to provide an optimum balance of:

- Performance
- Stability
- Cost

Our systems aren't wedded to a particular technology or process – we custom-design each and every system to reflect the individuality of your request depending on your budget, application and your dream.

Combined with extensive know-how and skills, a **Fidelity™** solution will provide dependably stunning images for years to come.
